

Allison Park Group, Inc RoHS STATEMENT

In February 2003, the European Union (EU) released a directive regarding the Restriction of Hazardous Substances in Electrical and Electronic Equipment (RoHS). The directive restricts the use of lead and other materials in electronic equipment sold in the EU beginning July 1, 2006.

Allison Park Group supports protecting the environment and serving our customers effectively. We have many customers who need to meet the requirements of RoHS, and we are committed to helping them.

Allison Park Group does not perform RoHS testing in house at this time but relies on response from suppliers for validation and compliancy information.

All current enclosures and mounts are manufactured to meet the RoHS directive and are compliant.
