

FIT YOUR CAMERA SOLUTION WITH TOUGH ACCESSORIES

We can help you find and install everything you need for a safe, reliable solution including in-cab monitors, junction boxes, and cables.

TOUGHEYE-3100™

POWER CABLE

- Connects to ToughEye-3100™
- Single connector with trigger for junction box, dual output, analog monitor compatible, 1 and 3 channels
- This 3m power cable is essential for a system using either our 1 channel or 3 channel junction boxes
- Provides power for our 7" display and up to 3 ToughEye™ units plus trigger wires that signal cleaning cycles manually or via an external timer
- Epoxy potted with polyurethane- overmolded military spec connectors for strong environmental resistance
- Resistant against high pressure water jets and extreme dust exposure

ANALOG MONITOR, 3 CHANNEL, 7" DIAGONAL

- 3-channel system with 7" display
- IP67 dust and waterproof
- Automatic adaptive screen brightness with physical buttons for brightness adjustment to suit specific preferences of each driver
- Lockable settings menu to ensure the correct settings are not unintentionally changed by users

ANALOG MONITOR, 3 CHANNEL, 7" DIAGONAL

- 3-channel system with 7" display
- IP67 dust and waterproof
- Automatic adaptive screen brightness with physical buttons for brightness adjustment to suit specific preferences of each driver
- Lockable settings menu to ensure the correct settings are not unintentionally changed by users

JUNCTION BOX, 1 CHANNEL

- Dual output, analog monitor compatible
- Suitable for applications where analog or analog + IP camera feeds are required
- Junction box provides a reliable, weatherproof means of accessing IP and analog signals
- Features military spec connectors and secure fuse integration
- Capable of supporting a single ToughEye™

JUNCTION BOX, 3 CHANNEL

- Dual output, analog monitor compatible
- Suitable for applications where analog or analog + IP camera feeds are required
- Junction box provides a reliable, weatherproof means of accessing IP and analog signals
- Features military spec connectors and secure fuse integration
- Capable of supporting up to 3 ToughEye™ cameras

MOUNTING BRACKET, ANALOG MONITOR 7"

- This rugged and fully adjustable RAM mount with stainless steel bracket has been designed specifically to support the mount of our displays in high vibration applications

DAMPED MOUNTING BRACKET, TOUGHEYE™ COMPATIBLE

- This bracket is recommended for welding to your equipment when the level of vibration/shock is extremely high.
- Typical applications include installation on tracked equipment or blast-hole drills.
- Its simple construction allows it to be welded directly to your equipment to ensure a reliable attachment and includes four dampers to reduce extreme vibration
